for building jail

The Committee appointed to settle the Accounts of the Committee for building the jail now make their report in writing as follows to wit: "The Committee Appointed to settle the Accounts of the Committee for building the jail have attended upon the business of their appointment & have made as thorough an investigation into the Accounts as their situation & the time allowed your Committee will admit - The Accounts of the building Committee are not yet fully closed and it is impossible to ascertain the exact amount of the expense of the public buildings - Some bills for materials found and labors performed of no very considerable amount have not yet been brought in but there may probably be paid from the amount to be received by the sale of sundry articles which were left on hand after the completion of the buildings - The amount of the orders drawn by the building Committee on the Treasurer is \$11,164.06 which sum includes the price of the land bought of Joseph Hopkins - for this sum we find the Accounts of the Committee correctly kept and supported by regular vouchers - from this may be deducted one hundred ninety three Dollars received by the Treasurer of the directors of the Springfield Bank so that the amount drawn from the Treasury including the sums for which he has given his obligations is \$10,971.06

It is believed that when all the Accounts are closed the whole expense of the public buildings & land will not vary materially from the sum last mentioned all which is submitted

= Gomery discont.

The Committee heretofore appointed on the Petition of Edward Taylor James Wheeler & James Wright agents & Committee of the Town of Montgomery praying for a discontinuance of a Road near the Dwellinghouse of Noah Shurtliff in said Montgomery & leading from the water house in said Montgomery & saying that support in writing as follows -
We the Subscribers appointed a Committee by the foregoing order for the purpose therein expressed having given due reasonable notice to the inhabitants of said Montgomery & all persons interested in the petition aforesaid to meet at the House of Elisha Chapman of in said Montgomery on the eleventh day of July anno domini 1816 & having met at said Chapman's in performance to said notice provided to the service assigned us by said order & viewed the several roads mentioned in the foregoing petition and now respectfully report that in our opinion the common convenience & necessity do not require the continuance of the said East road & it is our opinion that said road beginning about eleven rods easterly of Joel Moore's dwelling house thence running north 19° West 18 rods thence North 47° West 16 rods thence North 69° West 28 rods ought to be discontinued -
We find the facts respecting said road to be that it was laid out & established January anno domini 1800 but was not yet been opened. In 1804 application was made to the Court of General Sessions of the peace for a discontinuance of said road, whereupon a committee was appointed to consider & report thereon which Comtee reported to said Court our opinion said road ought to be discontinued with the exception of Samuel Fowler Esq. who did not sign the report in which report it was considered by said Court and not accepted. The further appeared to us that said report was returned into said Court by Edward Taylor Esq. who left it on the files of said Court under an impression that it would be accepted of course - That Counsel was employed to oppose the acceptance of said report & no person appearing on the other side it was rejected without a hearing upon the merits - There is no inhabitant on said East road & the distance is only nine & a half rods less than the West road which is our good ground mile wrought & an excellent carriage road - on which are several dwelling houses - said East road is over very wet marshy ground & cannot be made passable without an expense which we think altogether unreasonable to impose upon the inhabitants of said Montgomery - All which is respectfully submitted -

Which report being read and Isaac Wells / Committee
signed & accepted by the Court John Gould
as the road therein described is discontinued

The Committee heretofore appointed on the petition of Benjamin

from Blandford meetinghouse to Bannock Mills may be discontinued
Now make this report in writing as follows:-

Pursuant to the foregoing order of Court we the subscribers
therein named after giving the Town of Blandford Seasonable
Notice of the time & place of our meeting have attended on the
business of our appointment and after viewing both roads mentioned
in the foregoing petition and duly considering the same are
unanimous in our opinion that the new road so called leading
from Blandford meetinghouse to Bannock Mills ought to be dis-
continued - as in our opinion Common Convenience & capacity
do not require that the new Road should be kept open to the
of the opinion that the old road so called runs over much dry or
ground and will accommodate the public travel all things
considered must better than the new road and in our opinion
the Town of Blandford ought not to be burdened with the support of
two roads so near together for the accommodation of the travel there
now is so probably ever will be on the new Road if kept open
all which we humbly submit to the Honorable Court.

Report of the
Commissioners
of the Counties
Hampshire
Hampden
and agent
appointed

We the Subscribers appointed by the several Courts of Sessions in
the respective Counties of Hampshire, Grantham and Hampden Commissioners
pursuant to an Act passed February 27th 1783 to examine the Accounts
of the Treasurers of the County of Hampshire and to compute & adjust
the equitable share of each of said Counties in all the monies & Credits
of the County of Hampshire at the several times when the laws creating
said Counties of Grantham & Hampden took effect which remained
after the payment of the debt then due and owing from the said County
of Hampshire in proportion as each of said Counties were assessed in
the then last County taxes - Having met at Northampton have
attended the Service assigned us by the said Act directing & appointing us
but not being able to agree as to the right of the Inhabitants of said
County of Grantham to demand & receive any part of the monies of
the County of Hampshire or the Liability of the County of Hampden to
refund any part of the monies received from the County of Hampshire
on former adjustment - We have agreed that the judgment and
opinion of the Supreme Judicial Court should be had and taken

as speedily and with as little expense as may be upon the facts and statements herein after made and recommend that for this purpose proceedings be had to bring the same before said Court —

We find that of the County tax next preceding the creation of the County of Strambulim the County of Hampshire paid in the proportion of 1626.55 and the County of Strambulim the sum of 374.08 —

at the time the act creating the County of Strambulim took effect there was in the Treasury of the County of Hampshire the sum of 4485.53
debts, fines, & forfeitures due to the County which have since been paid . . . 1388.86
outstanding taxes which have since been paid . . . 245.02
6678.21

besides taxes which have not been collected being 1578.46 —

And the County of Hampshire has since paid for debts previously due the sum of . . . 2917.19
3753.02

leaving the balance in the whole —

and according to said Statement and proportion the County of Strambulim if by law entitled would be entitled to receive from the County of Hampshire the sum of thirteen hundred eleven Dollars Eighty four Cents exclusive of disbursements made by the County of Hampshire for ferry fees and other expenditures, arising since the law creating the County of Strambulim took effect. — If the balance of outstanding taxes shall be received the same should be accounted for in the above proportions — We find no debts due to said County of Hampshire and no claims or demands arising before that time and still unpaid which are not barred by the statute of Limitations —

We also find that pursuant to an adjustment made Nov. 1812 according to the act creating the County of Hampden the County of Hampshire had paid over to the County of Hampden the sum of Eleven Hundred thirty two Dollars thirty eight Cents before the said act directing the appointment of said Commissioners as the balance then due to said County of Hampden, and there was at the time the act creating the County of Hampden took effect a balance of outstanding taxes debts and demands which have since been received by the County of Hampshire of which the proportion of the County of Hampden over and above disbursements which were made by the County of Hampshire was three hundred & forty dollars eleven Cents making according to the adjustment made between said Counties of Hampshire & Hampden the whole proportions of the County of Hampden to be paid by the County of Hampshire the sum of 1472.49 exclusive of expenditures & claims for demands arising since the Supreme Judicial Court September Term 1812 and also exclusive of a claim for the County Standard weights & measures — If the County of Strambulim is entitled to receive of the County of Hampshire the of said sum of 1311.84 and the County of Hampden is liable by law

to refund any part of the money received as aforesaid the sum of
 three hundred & forty Dollars eighty six Cents ought to be reimbursed
 by said County of Hampshire to the County of Hampshire - but if
 the said County of Hampshire is not so entitled or the County of
 Hampshire be not liable to reimburse as aforesaid then the sum
 of three hundred & forty Dollars eleven Cents ought to be
 paid by the County of Hampshire to the County of Hampshire
 all which is submitted

 necessary respecting said report

a Road from
Agawam Bridge
to Suffield

with as little expense as may be upon the facts and
To the Honorable the Justices of the Circuit Court of Common Pleas holden
at Springfield within & for the County of Hampden on the first Monday of
September in the year of our Lord 1815

The Subscribers would respectfully represent that the public
Highway from Agawam Bridge in West Springfield to Suffield meetinghouse
is very circuitous, and that a road might be laid which would shorten the
one mile or more on ground of little & in every respect as good for a
public road as the one which is now travelled the road on the
contemplated route is already laid & opened within the limits of the Town
of Suffield and there is a town road in West Springfield connected with
it which is laid and opened for about three fourths of a mile within
this State & terminates a little West of the dwellinghouse of Elias
Hubbard - that the road might be continued from thence to Agawam Bridge
in nearly a straight direction with little inconvenience to individuals and to
the great accommodation of the Public - Your Petitioners therefore pray
that a Committee may be appointed to view the ground from Agawam
Bridge aforesaid to Suffield here in such a direction that the road
shall terminate at the point where the Town road running a little
West of the dwellinghouse of Elias Hubbard crosses the line between
the State of Massachusetts & Connecticut and ascertain the most
convenient course for a public Highway that the same one be
adjudged of common necessity & established & laid agreeable to the
provisions of the law in such cases provided and your petitioners
shall ever pray - Springfield Sept. 11. 1815
Jonathan Dwight & others

This petition was entered in this Court at the Term thereof holden at
Springfield in said County on the first Monday next after the fourth
Monday of August in the year of Lord one thousand Eight Hundred
& fifteen - At which Term it was ordered by the Court that notice
be given to the Town of West Springfield of the pendency of this petition
by serving the Town Clerk of said West Springfield with an attested
copy of this petition and order of Court thirty days before next
Term of this Court - And the Court thereupon appointed Just. Blais
Ethan Ely & Alexander Field a Committee to view the proposed
road as prayed for in said petition, which Committee were to give
due & Seasonable notice ^{at all intervals} to the Selectmen of the Town of
West Springfield and all persons therein interested of the time & place
of their meeting to attend said Service & hear the parties and
report to the next Term of this Court to be holden at Springfield
in said County on the third Monday of March next their opinion
as to the Common Convenience or necessity of laying said road as prayed
for in said petition - after which it was continued to the next
Term of this Court to be holden at Springfield within & for said
County on the third Monday of March in the year of our Lord
one thousand Eight Hundred & fifteen - And now at this Term
holden as last aforesaid the Just. Blais, Ethan Ely, & Alexander Field
the Committee heretofore appointed to view said road make their Report
in writing in the words & figures following - Pursuant to the Appointment
herein annexed. We the Subscribers notified the Selectmen of West Springfield

and other interests as therein directed who were present while we viewed
 the proposed road as prayed for in said petition and having heard the
 parties concerned, we have to report that we find the distance from
 West Springfield to Suffield on the proposed road may be shortened one
 mile or more than it is by the present traveled road and that the
 road prayed for may be as good in all respects if not better than
 the present one. The public would thereby be much better accommodated
 than they now are, but notwithstanding considering the great
 expense that will be necessary to open & make said road especially
 some part of it we cannot think the common necessity so great
 as to present as to require said road to be laid out unless some considerable
 part of the necessary expense thereof should be provided for in some
 other way than is provided by law for that purpose all which is
 respectfully submitted - Springfield March 20th 1846

which report being read & considered it is now ordered that the foregoing petition
 be referred to a committee with instructions to report the direction of the road
 and what part of the expense ought to be paid otherwise than is provided
 by law and report to this Court to be held in at Springfield in said County
 on the fourth Monday of August next - after which it was continued
 to the next Term of this Court - And now at the Term of this Court taken
 at Springfield within & for the County of Hampden on the fourth Monday
 of August in the year of our Lord one thousand Eight hundred & thirty
 six the aforesaid Committee make their further report in the words & figure
 following "The Committee to whom the foregoing Report was committed
 with Instructions to report the direction of the road & what part of the
 expense ought to be paid otherwise than is now provided for by law are
 here to report that although it is quite feasible to open a road on one
 course from Agawam Bridge to Suffield line - yet your Committee
 are of opinion that the ascent of the hill will be easier by making one
 deviation or rather by laying the road on two courses - if the Town
 of West Springfield can be indemnified against the expense of making
 the road from the Town way leading by the house of Amasa Chaseworth
 down the hill and across the Swamp to the foot of the hill, we are
 of opinion that Common Convenience & necessity require that the
 proposed road should be laid beginning at the West end of Agawam Bridge
 & running in a direct line up the hill north of Amasa Chaseworth
 through the first hollow west of his house, thence to the Bacon road &
 little west of the dwellinghouse of Elias Hubbard & which three tracts
 the road leading from Agawam to Girdingville and thence in the
 present Town road to Suffield line all which is submitted

which report being read & considered & after it appearing to the Court that all
 persons interested had been duly notified, it is accepted by the Court and the road
 ordered to be of common convenience & necessity - and the following
 persons were agreed upon as a Committee to view & lay out said road
 (to wit) Elijah Bates, William Mosley, Moses Chapin, Isaac Wells Esqr.
 & Capt. Joseph Dease - and the Court thereupon appoint them the said Elijah
 Bates, William Mosley, Moses Chapin, Isaac Wells & Joseph Dease a Committee
 to view & lay out said road & after which it was ordered that the next Term
 of this Court be held at the Town of the Court taken at Springfield within

 assess the Damages sustained by the said Daniel after due notice
 to the Inhabitants of said Town of Longmeadow - And the said Daniel
 also avers that he is aggrieved by the locating said way as well as by

Road in
Wilbraham
Alfred

On the Petition of Wilder C. Deane and thirteen others praying for
the alteration of a road leading through the Towns of Mansfield
Wilbraham & Connecticut line charging & representing that in a petition
to said Court on the fourth Monday of March Eighteen hundred & sixteen
Petitioners then ordered a County road to be laid out from Mansfield
meetinghouse to the Connecticut line near Mr. Aaron Chapins
agreeable to the order of said Court a Committee appointed by the Court
procured & laid out said road according to their best skill & judgment
but they being confined to Burt's Mills laid said road across the Dam -
The Committee being sensible it was a very unfit plan for a road
to be laid the road being so contracted and the business which
calls inhabitants to the mills for sawing & grinding will so much
obstruct the travel that it will be of great inconvenience to travellers
and to the Public - Therefore we your Petitioners pray your Honors
to appoint & authorize a Committee to make an alteration in said
road beginning at the intersection of the roads near Wilder C. Deane
from thence a straight course to Wino's thankful Burt's which will
save a number of rods in the distance and no additional expense
in making or supporting said road -

due & reasonable notice to the Selectmen of said Town of Wilbraham
and all persons therein interested of the time and place of their meeting
to attend said Service - After which it was continued to the next Term of

Dismissed

Moses Ashley
Petition for a
Road

To the Honorable the Justices of the Circuit Court of Common Pleas
to be holden at Springfield within & for the County of Hampden on
the fourth Monday of August in the year of our Lord 1810

The Subscribers Inhabitants of the Town of West Springfield would
respectfully represent that the Town road leading from Ashley Street so
called by the house of Solomon on Ashley to Brushhill is very circuitous
& hilly but that a much swifter & better road might be had by leaving
the County road South of the Store of E. & E. Winchell & running west
across the lands of Oliver Bagg & David Ashley so as to intersect the
present Brush hill road at the South end of land of Moses Ashley -
The distance on the old road from the Store of E. & E. Winchell to
the point of intersection is three hundred & thirty seven rods -
whereas the distance on the proposed route is only one hundred
& eighty six rods and the hill less elevated & of a more gentle ascent
The Subscribers would further represent that this road to the
Inhabitants of the Town is one of the most important within its
limits - the greater part of the land of a considerable number of the
Inhabitants living on the River road lies west of the proposed new
road from which nearly all their grain, all their wood & some part of
their hay is transported and to which their Cows & other cattle are driven
to pasture - that there is a Gristmill & Saw Mill to which the Inhabitants
have frequent occasion to resort - and that many Inhabitants living
at Brush hill and further West transport their produce to Day's
landing and would receive great benefit from the alteration of the
road - The Subscribers would further represent that early in the
month of April last they presented their request in writing to the
Selectmen of said Town desiring them to lay said road but they have
refused to lay the same - Wherefore your petitioners pray that a
Committee of three disinterested Freeholders may be appointed to lay
out said road agreeable to the Law in such case provided and as in
duty bound shall ever pray
Moses Ashley & twenty one others
West Springfield Aug. 5. 1810

This Petition was entered in the Circuit Court of Common Pleas at

the Term thereof, holden on the fourth Monday of August 1810 - when it was ordered by the Court that the Petitioners cause notice to be given to the said Town of West Springfield and also to Oliver Bagge & David Ashley by giving the Town Clerk of said Town of West Springfield and the said Oliver Bagge & David Ashley with a true & attested Copy of their petition & that said notice be given thirty days at least before the next Term of the Court to be holden at Springfield in said County on the third Monday of March next.

And it was further ordered that George Blake, Josiah Stebbins, & Justin Lombard be a Committee to view the proposed - afterwards the Petition was continued to the Term of said Court holden on the third Monday of March as aforesaid at which Term it appeared to the Court that due notice had been given to the said Town of West Springfield and the said Bagge & Ashley agreeable to the order, and also which Term the aforesaid Committee made their report in writing in favour of laying said road which being read and the answers thereto objected to by said Bagge - where on motion of the Petitioners leave was given them by the Court to amend their petition by inserting in their petition the words following - "request in writing which Application is hereto annexed" - We the Subscribers Petition the Selectmen of West Springfield to come or go & see if it is expedient to lay out & open a road from or near E. & C. Winchells store in near a West line until it intersects the Brush Hill road at or near the corner of Grantham in the road South of the old Ashley house & report to the Town at the next May Town meeting - West Springfield 7th April 1810

Mys^r. Selectmen of West Springfield

After which Amendment the Court made this further order thereon
Hampden Co. Circuit Court of Common Pleas March Term 1819

D. 1819 to view the within described road after giving notice to the Selectmen of said West Springfield, Oliver Bagge David Ashley & all persons interested therein met the parties at the Store of E. & C. Winchells in said West Springfield on the ninth day of August Instant and having heard the parties their pleas & evidences in favour & against laying of said road and viewing the ground, beg leave to report that in the opinion of your Committee that it is not of Common Convenience or necessity, sufficient to warrant the Inconvenience to said Bagge or expense to said Town all which is Humbly Submitted to the Honorable Court of Sessions to be holden at Springfield within & for the County of Hampden in August A. Court in said adjudication he having been on the viewing Committee upon
said petition which exception is in the words & figures following,

Commonwealth of Massachusetts

L.S. Hampden Court of Sessions August Term 1817 Steward Beebe & others
Petitioners for a Road against the Inhabitants of Monson
And the said Inhabitants of Monson except here to the opinion of the Court
in this, to wit, that at the Circuit Court of Common Pleas for said County Aug-
ust Term 1818 the said Petition came on to be heard & the Justices of said Court
then & there appointed Herman Day Esq^r and Amos Hamilton Esquire two of
the Justices of said Court with Samuel Lathrop Esq^r a Committee to view
the road prayed for in said Petition & report thereon whether the same road
was of common convenience & necessity and the said Petition was thereupon
continued from Term to Term to the present Term of said Court of Sessions
& the ^{said} Committee did then report that in their opinion the road prayed for
in said Petition was of common convenience & necessity - whereupon the
Counsel for the petitioners moved the Court that the same report might
be accepted & the said road adjudged by the Court to be of common conven-
ience & necessity to which motion the Counsel for the said Inhabitants of
Monson objected & the same Petition & the report thereon came on for trial
before the Justices of the said Court of Sessions - And the Counsel for the
said Inhabitants of Monson did then & there object to the Court that Herman
Day Esquire one of the Justices of the Court had there before that time one
of the Committee for viewing said Road given a previous opinion in favour
of the said petitioners & was by reason thereof not qualified by law to hear, act &
adjudge upon the said Petition & upon the questions which would occur upon
the hearing thereof - and did then & there move the Court that the said Her-
man Day Esq^r should not hear, act, & adjudge upon said Petition and the said Court
did then & there declare & adjudge that the said objections of the said Inhabitants
of Monson were not sufficient in Law to exclude the said Herman Day Esq^r from
sitting to hear, act & adjudge upon the said Petition & upon the questions which
would occur upon the hearing thereof - Whereupon the Counsel for the
Inhabitants of Monson did then & there on behalf except to the aforesaid
opinion of the Court & inserted on the said objections as sufficient in law
to exclude the said Herman Day Esq^r from sitting on the Court in the hear-
ing of said Petition - And inasmuch as the said Matters objected on the
part of the said Inhabitants of Monson do not appear by the record of
the Petition aforesaid - the said Counsel for the said Inhabitants of
Monson did then & there propose those aforesaid exceptions to the said
opinion of the Court & requested the Chief Justice of said Court to put
his Seal to this bill of exceptions containing the said several matters so alleg-
ed in objection on the part of the said Inhabitants of Monson according
to the form of the Statute in such Case made & provided And thereupon the
said Chief Justice at the request of the said Counsel did put his Seal to this bill
of exceptions this 19th day of August A.D. 1819 Stephen Pyncheon Chief Justice
of said Court

and the Court thereupon appoint Eben Foot, Warham Shepard James Hunt Luke Parsons & Jonathan Parsons a Committee to view & lay out said Road after which it was continued to the next Term of the Court & thereupon a warrant issued to the said Eben Foot, Warham Shepard James Hunt Luke Parsons & Jonathan Parsons in the words & figures following, to wit,

Others Pet. for
a Road and
Committee Report
Thereon

To The Honorable Justices of The Court of Sessions begun & holden
at Springfield within & for The County of Hampden on the fourth
Tuesday of March A. D. 1820

Respectfully shew the undersigned that a new Highway to
begin at the existing road near Chicopee Bridge in Chicopee in
said Springfield, extend Northerly & unite with the old road near the
point where the road now leading from said Chicopee to Ludlow
Separates from that leading to South Hadley by the house of Dormer
Chapin will greatly accommodate the public, by rendering the
way much more direct, and very considerably shortening the distance
that the ground over which the proposed way will pass is very favorable
for a road and that the same can be made at small expense.

Wherefore they pray that the same New Highway may be adjudged to be
of Common Convenience & necessity and located & established
according to Law - Your Petitioners would further represent that
in case the above proposed New Highway is established it will
supercede the necessity for the alterations in the road prayed for in
the petition of Abel Chapin & others - wherefore they further pray
that the prayer of that Petition may not be granted and as in duty
bound will ever pray &c.

Springfield March 14th 1820 Joseph Griswold & thirty four others

thirty days at least before the next Term of this Court to be

to view the said proposed road, who were to give due and
seasonable notice to the Selectmen of said Town of Springfield
and all persons therein interested of the time & place of their

Court holden as aforesaid their Opinion as to the Common
Convenience and necessity of laying said road - after which

The Petition of the Subscribers humbly shew that the County
Road running from near Ralph Andrews Dwellinghouse in the said
Town of Presell to Blandford was so much injured by the great flood
in July 1819 as to render it impossible for man or beast to travel
on for a considerable distance, and to repair it far surpasses our ability
and in our opinion the public good does not require the said road
- We therefore pray that the same may be discontinued from the
said Andrews to Blandford line -

To the Honorable the Court of Sessions for the County of Hampden begun & holden at Springfield within & for the County of Hampden Tuesday next preceding the fourth Monday of August in the year of our Lord 1820

The Subscribers in Inhabitants of Granville in said County represent that a public Highway is necessary for the Public Convenience as well as for foot of the Inhabitants of Granville leading from the Meeting House in the Middle Parish in Granville to Watland line by the house of Luman Phelpsman (being a distance of two miles & three fourths of a mile) & from thence to Watford - The proposed route will shorten the distance one mile and be less hilly - that your petitioners have requested the Selectmen of Granville to lay out said Road which they have done, and the Town of Granville have unreasonably delayed & refused to approve & allow said way laid out by the Selectmen, & put the same on record, the Subscribers feel aggrieved by the delay & refusal of the Town - They therefore request the honorable Court to appoint a Commission of three disinterested freeholders to lay out said Road, or to accept and approve of said way as laid out by the Selectmen & direct the same to be recorded in the Town Book and as in duty bound will ever pray -

Benton
Pet. for a jury

The petition of Eliaburn Benton humbly sheweth that on the thirteenth day of
June now last past the Selectmen of the Town of Springfield in said County made
certain alterations in the Union Road leading from the Boston road to Sipton Ave
Mills in said Springfield town, beginning in said alterations at a place called "one
pitt" near the dwellinghouse of Eli Foster & running Northwesterly of the Old road
through the land of your petitioner a distance of about Seventy five rods which
said alteration was accepted by said Town of Springfield on the twenty first of August
now last past. And the said Benton further represents that by reason of the alteration
aforesaid he is greatly damaged & subjected to great loss inconvenience & expense
by the loss of the use of his lands and being obliged to cut a fence on both sides
of said road the distance aforesaid - Yet the Selectmen in their determination
in that behalf awarded the sum of Fifteen Dollars only to be paid to your
petitioner which he considered wholly inadequate to the damage he sustained
and was not accepted by him - And your petitioner feeling himself
aggrieved in this behalf now appeals from the said determination of said
Selectmen to this Honorable Court & prays that a jury may by them be appointed
summoned and impanelled as is by law provided to investigate & determine
the amount of Damages which the said Benton ought in justice to receive in
the premises as in duty bound will ever pray

 Pet. for a road

Humbly shew the Subscribers that the County Road leading from the Northeastern
 line of Palmer in said County to the west line of the Town of Westmore in the
 County of Worcester is hilly & circuitous that several alterations might be made
 in said road which would shorten the distance and avoid the hills in a great
 measure — Therefore your Petitioners pray your honors after due proceedings
 in the premises to appoint a Committee to locate & make such alterations in
 said road as shall be for the Convenience of the public and as in duty bound
 will ever pray —

Timothy Babcock & 34. others

This Petition was entered in this Court at the last March Term thereof at which
 Term it was ordered by the Court that the Petitioners cause notice to be given
 to the Town of Palmer by serving the Town Clerk of said Town of Palmer
 with a true & attested Copy of this petition & order thereon thirty days at
 least before the next Term of this Court that they may then & thereafter
 and shew Cause if any they have why the prayer for in said petition should
 not be adjudged of Common Convenience or necessity — after which this petition
 was continued to this Term — And in this Term it appearing to the Court
 here that the Town of Palmer had been duly notified and who appear by James
 Stebbins Esq. their agent and the Petitioners also appear — and after a full
 hearing of the parties upon said petition It is Ordered by the Court that
 the petitioners take nothing by their petition —

J. Crawford & others
 Pet. for a Road

Humbly shew the Subscribers that the roads from Holland in said County
 to Union in the State of Connecticut are circuitous & extremely hilly & uneven
 & that a road has been laid out in the State of Connecticut by the House of John
 Crawford in Union to the North line of said State and that a road in the
 district of Holland in said County of Hampden to unite with & meet said road
 so laid out in Connecticut would be of great public advantage for the
 accommodation of persons passing to & from Butterworths Mills so called
 and for the general passing through Holland into the State of Connecticut —
 They therefore pray that after proper proceedings shall thereon be had a road
 beginning at the road between the house of Luriah May & the dwelling house of
 Judah Barker both in said Holland through land owned by John C.
 Butterworth over & across said Butterworths Mills pond and through land of said
 Luriah May to the line of this Commonwealth & to meet the road so laid out
 by said Crawfords house in Union — the whole of said length of road being
 in Holland in said County of Hampden may be adjudged of Common
 Convenience & necessity & be laid out & established as a Common public Highway

This petition was entered at the term of the Court of Sessions holden for said County
on the Tuesday next preceeding the fourth Monday of August in the year of our Lord
Eighteen Hundred & twenty one at which term it was ordered by the Court that
the petitioners cause notice to be given to the Towns of Springfield & Wilbraham by
serving the Town Clerks of the said Town of Springfield and the Town Clerks of the
said Town of Wilbraham each, with a true and attested copy of this petition and
this order thereon thirty days at least before the next term of this Court to be holden
on the fourth Tuesday of March next that they may stand & thereon appear and shew
cause if any they have why the prayer of said petition should not be granted - And it
is further ordered that Samuel Lathrop, Luke Parsons & Enos Footh be a Committee to
view said road and they are to give due & reasonable notice to the Selectmen of Springfield
and Wilbraham and all persons interested therein of the time & place of their meeting to attend
said service to hear the parties and report to the Court to be holden as last aforesaid their opinion
as to the common convenience or necessity of making the alterations or laying a new road
as prayed for in said petition and this petition was from thence continued to the term of
this Court to be holden for said County on the fourth Tuesday of March in the year of
our Lord Eighteen Hundred & twenty two at which term the aforesaid Committee made
the report in writing as follows - "We the subscribers appointed a Committee by the aforesaid
Commission to view the road from the bottom of the hill east of the Sikes farm in Wilbraham
to the Court House in Springfield and report their opinion as to the common convenience
& necessity of making alterations in the old road or of laying a new road after having
given notice of the time & place of their meeting to the Selectmen of the Towns of Wilbraham
and Springfield and all others interested so far as they come to their knowledge, have
attended to the service assigned them and submit the following report - It was
believed that an accurate survey and map of the present travelled road would greatly
facilitate the labours of the Committee and would also serve to render any proposed alteration
more intelligible to the Court - for this purpose one of the Committee assisted by chains men
made the survey & produced the map which is herewith submitted - Previous to
the survey it appeared to be the general impression that the road was too far
South and that for any material alterations or improvements the Committee must go
farther North - but from an inspection of the map it appears that this impression was
erroneous - From Springfield street to Parsons dam so called some part of the road is a
little too far to the South, but from Parsons dam to Nine mile pond the whole course

of the road is too far North extending in some parts of it three fourths of a mile North of a direct line — The Committee in the first place directed their attention to the present road in order to ascertain whether the great lands which now exist might be cut off so as to produce any material alterations — but they found that a little departure to the South would lead them into swamps surrounded by high hills over which it would be difficult & in some cases impracticable to make a good road — many obstructions, however might be made which would not only shorten but improve the road but these alterations were more particularly surveyed & examined as the Committee finally concluded a new road would be preferable — It was very obvious that the greatest distance would be made by taking a direct line from Parsons' dam to the North end of Pine Mill Pond — For the purpose of examining the ground and of ascertaining the distance, and the consequent saving of travel they started from the Southwest corner of Shad. Ferry's old house a little east of Parsons dam and run east 15. deg. North with as much accuracy as the nature of the ground would admit & came out in the road near point of calculation a little west of Pine Mill Pond — The whole distance was run on one point & no obstacle was found in the way of making a good road in a perfectly straight line though it appeared to the Committee that advantages of ground & facility in making the road were in favour of occasional deviations — The greater half of this ground is now covered with wood and it is perhaps difficult to judge of the nature of the soil so as to make an accurate comparison with the present road — but the committee were unanimously of opinion that the ground was less sandy & would make a harder & better road, the distance on the present road is six miles 2 1/4 rods the saving will not be less than three fourths of a mile — Considering the great importance of this road to the traveller as well as to the inhabitants in the easterly part of this County in their intercourse with Springfield, the committee are of opinion that public convenience & necessity require that the road should be laid out from Springfield street to the first Massachusetts Turnpike beginning at Dwight's corner & following the road up the hill to Wait's monument of a sufficient width to include all the ground between the fences & buildings on each side of the road thence running Easterly in the most direct and practicable course to the South side of Shad. Ferry's old house thence in the most direct and possible course to the North end of Pine Mill Pond thence following the road to the Turnpike with permission to the laying Committee to make one short alteration a little East of Capt. Shields' house — all which is respectfully submitted

at which last mentioned term it appearing to the Court that all persons interested had been duly notified according to the aforesaid order and the inhabitants of Springfield and the inhabitants of Wilbraham being each three times publicly called to come into made default of appearance and afterwards on motion of Oliver B. Morris Esq. who stated he appeared for the respondents leave was granted by the Court that the default of the inhabitants of Wilbraham be taken upon condition of their appearing at the next term of this Court and the aforesaid report being read & considered was ordered by the Court to be recommended to the same Committee and said petition to be further continued to the next term of this Court to be holden on the Tuesday next proceeding the fourth Monday of August then next at which term the inhabitants of the Town of Springfield appeared by Justice Willard Esq. their agent and the said inhabitants of Wilbraham appeared by Abel Bliss Esq. their agent

... said Committee make their further report in writing in the words & figures
following: "The Committee to whom the foregoing report and petition have been recommended,
have again had the subject under their consideration and submit the following additional
report - Notice was given to the Selectmen of the Towns of Springfield and Wilbraham and
they attended upon the Committee and assisted them in their examinations - As the
order of recommendation specifies no particular object, the Committee inferred that the whole
subject was referred to their reconsideration - Their first enquiry therefore was whether
such alterations & improvements might be made in the present road as to supersede
the necessity of laying a new one - At the suggestion of the Committee the Selectmen
of Springfield had caused a survey and admeasurement of the road in connection
with such alterations as in their opinion would shorten & improve it, and the
Committee are satisfied that their survey embraces quite as many alterations as
would tend to make the road better and takes the shortest practicable route if the
present road is made the basis upon which to build - By this it appears that
the saving between Parsons' dam and Russell's farm a distance of rather more than
three miles does not exceed thirty rods while more than half the road must be made
on new ground & the whole or a part of the width must be purchased - it is submitted
to the decision of the Court whether the public interest requires that the Town of
Springfield should purchase so small a benefit at so great an expense - The
principal saving by this survey is in the Town of Wilbraham, according to the
calculations which the Committee have made from this survey, compared with
a former admeasurement made by them of the old road it appears there will be a
saving of about Seventy rods in the distance - But the ground selected by this survey
in the opinion of the Committee, is not so good for a road as the present travelled
path, it is surveyed wholly on new ground except for a few rods where it crosses the
present path, it is more hilly & passes through some low swampy ground and
would require above one hundred rods of new road more than the route formerly
reported by the Committee - The damages sustained by individuals will be
greater and the ground not so good for a road, the first obtaining of the road may
perhaps be accomplished at a less expense because the ground is cleared and of a
lighter soil, but it is believed that the whole expense of the Town of Wilbraham
by this survey will be equal to the road reported by the Committee - The
Selectmen of Wilbraham proposed that instead of diverging wholly from the old
road it should be followed with only some small deviations, and the Committee
are inclined to the opinion that this course would be preferable to the one pointed
out by the survey - It is believed that the principal part of the survey road lying
within the town of Wilbraham may be shunned at an inconsiderable expense
From the best examination the Committee have been able to make, they see no reason
to change the opinion which they expressed in their former report - Should it
however be the opinion of the Court that the report ought not to be accepted so far as it respects
the new road from Parsons' dam, the Committee are of opinion that some alterations
may be made upon the old road much to the advantage of the traveller and without
imposing any great additional expense upon the Towns - But as they remain of the
opinion that the route proposed by their former report is preferable to any other which has
come under their observation and that its great importance to the public will justify
all the expense which will be imposed upon the Towns in consequence of it, they have
not made such a minute survey of the alterations which might be made upon the

present road as to be able to designate them particularly in their report all which was respectfully
submitted - Springfield Aug^l. 14th. 1822.

To the Honorable The Court of Sessions for The County of Hampden to be holden at Springfield in & for said County on the fourth Tuesday of March in The year of our Lord 1824 - The subscribers would respectfully represent that they are the Proprietors of a valuable Grist Mill on Agawam River, and that in order to carry their Mill they are under the necessity of maintaining an expensive Dam across the stream - That your petitioners are under the necessity of opening a passage way through said dam every year for the passage of fish up

The River, the place and dimensions of which have been proscribed by a decision of the Court, but at this place the stream is so rapid in the spring, that not a few fish can ever pass through the passageway and that those who are interested in the fishery would be better accommodated by a removal of the passageway near the western shore of the River - Your Petitioners would further represent that but few fish would pass up the stream even if there was no dam across the river and that in their opinion the passing of the fish up the river is not of so great general benefit as the opening of the passageway in that dam is of damage to the Owners of the Mills & others - They therefore pray that a Committee may be appointed to repair to said dam and view the same, with authority to report that said passageway is unnecessary, and that your petitioners may be freed all obligation to make or keep open any passageway - and in case the said Committee shall be of opinion that a passageway is still necessary they may be authorized to locate the same in such place and for such length of time in each year as will best subserve the interest of all persons concerned - West Springfield March 23. 1824

that the same passage be opened & remain open & free for the passage of fish from the
fifteenth day of April to the first day of June annually all which is most humbly submitted

Road from
Springfield
through Wilbraham
to Coltons Hollow
so called in
Masson

The petition of the Subscribers Inhabitants of the Towns of Wilbraham Springfield and Masson in said County Humbly shew that a new Highway or Common road beginning at or near the dwellinghouse of Eli Foster in said Springfield through or across the Town of Wilbraham near the dwellinghouse of Mr. Luther Brewer of Wilbraham in a more direct line or course for the Meetinghouse in Masson to Coltons Hollow (so called) in said Masson is much wanted as the same would greatly shorten the distance of travel between said Springfield and Masson and would be a road less mountainous and more favourable for the traveller than any one now travelled - Your petitioners therefore pray that your Honors would appoint a Committee of legal number of disinterested sufficient freeholders in said County to lay out such new way agreeably to a law of the Commonwealth in such cases made & provided

Stephen Utley & twenty one others

This petition was entered in the Court of Sessions at the term thereof holden for said County on the fourth Tuesday of March in the year of our Lord One thousand Eight Hundred & twenty four at which term it was ordered by the Court that the petitioners cause notice to be given to the Towns of Springfield Wilbraham & Masson by serving the Town Clerk of each of said Towns with a true & attested copy of their petition and order thereon thirty days at least before the next term of this Court to be holden on the Tuesday next preceeding the fourth Monday of August next that they may then & there appear & show cause if they had why the prayer of said petition should not be granted - and thereupon the Court appointed Elijah Bates Luther Parsons & Nathaniel Shepard a Committee at the expense of the petitioners to view the road as prayed for and this petition was continued to the term of said Court holden for said County on the Tuesday next preceeding the fourth Monday of August in the year of our Lord Eighteen Hundred & twenty four at which term the Subscribers of the Town of Springfield appeared by their attorney Jonathan Dwight Junr Esq. and waived all irregularity in the service of notice and the Inhabitants of the Towns of Wilbraham & Masson appeared by Oliver B. Morris Esq. their attorney and the Committee aforesaid made their Report in writing as follows - "We the Subscribers a Committee appointed by the within order of Court having given due and seasonable notice to the Selectmen of the Towns of Springfield Wilbraham & Masson in said County & all persons interested of the time of place of our meeting to perform said service and the Selectmen of the Towns of Wilbraham & Masson and others interested in said road and with them proceeded to view & examine the same and the places for the proposed alterations - Your Committee after having viewed said road & after having heard the parties are unanimous in our opinion that important alterations may & ought to be made and that common convenience & necessity require it - Your Committee beg leave

further to report that the Road now traveled in many places of great length is very narrow
 The fences on each side of the road being so near that there is not room to get earth or gravel
 to advantage to repair the road and that the snow in the winter season is caused by
 the fences to drift in the road & impede the travel — In some places where the land is
 naturally stony there is not room between the fences and the road traveled to throw the stone
 so far from the path as to prevent them from rolling back in to the path by being moved by
 the driving of cattle or sheep — We are therefore of opinion that the road generally ought to
 be opened & made greater in width — Your Committee further report that that the
 following alterations are important in shortening the distance and avoiding the
 ascent of the hills and that the public good, common convenience & necessity require
 the following alterations to be made (viz) Beginning at the angle or place where the North
 Wilbraham and South Wilbraham roads unite in Cottons Hollow so called in Mansons
 thence running on the South Wilbraham road South 74° West 20 rods thence S. 74° W. 90
 rods to the woods thence S. 46° W. 10 rods thence S. 60° W. 24 rods thence 77° W. 80 rods to the old
 road, from thence an old road now traveled runs within some corners & angles by
 widening the road to the four corners so called on the top of the hill or Wilbraham Moun-
 tain Eastwardly of the North Meetinghouse — thence beginning at or near the said
 four corners & running Westwardly to the main road & to connect with the same
 between the said Meetinghouse and the dwellinghouse of Stephen Utley passing
 near the dwellinghouse of Luther Brewer on the side of the mountain in said
 Wilbraham and that said road be laid across the corner of a lot of land belonging to
 Samuel Warner lying East of the dwellinghouse of Charles Brewer jun. in said Wilbra-
 ham — Your Committee further report that common convenience & necessity
 require that one other alteration on said road be made in the town of Springfield
 (viz) beginning a little South of & near the dwellinghouse of Eli Foster in said
 Springfield on the Sixteen acre road so called leading to Ludlow thence running
 Eastwardly to the now traveled road to Wilbraham across the land belonging to
 the distillery Company of Sixteen acres so called all which is most humbly
 submitted Wilbraham June 17th 1024 —

and it appearing to the Court that all persons had been duly notified according
 to said Order of Court and after a full hearing upon said report the same was
 accepted by the Court and the way therein described was adjudged by the Court
 of common convenience & necessity — And thereupon the Court appointed
 Elijah Bates, Luke Parsons, Nathaniel Shepard, James Went, and Jonathan
 Parsons disinterested persons and all Freeholders within said County a
 Committee to lay out said Highway and said petition was further continued
 to this term of this Court and now in this term the said Committee make
 their Report in writing as follows (viz) "Hampden Co. Springfield Nov. 5th 1024
 "We the Subscribers a Committee appointed by the within warrant and for the
 purposes within mentioned having gave due & reasonable notice to the Select-
 men of the Towns of Springfield, Wilbraham & Mansons and all other persons
 interested of the time & place of our meeting to perform said service and all
 being sworn to the faithful performance of the same, met the Selectmen of the
 towns of Mansons & Wilbraham and most of the Inhabitants interested in said

proposed road in said Town and also in said Town of Springfield there in Trust & with
 them proceeded to perform the duties assigned us, and by leave to Report that there be a new
 County road established from said Monson to the dwellinghouse of Eli Foster in Springfield
 some part of said road wholly leaving the now traveled road & the remainder running
 upon and near the same (Viz) Beginning at a large flat rock in Collins Hollow so
 called in said Monson on the North side of the now traveled road leading from
 Wilbroham to said Monson a little East of the intersection of North & South Wilbroham
 roads - thence South 74° West thirty one rods to a stake & stones on the North side of the
 road to South Wilbroham and said distance is on the now traveled road, thence

Humbly ^{where} the Subscribers Inhabitants of said Springfield shew that the road leading, &c.
main street in said town towards Boston should be well altered & straightened & to make
the south boundary of said road conform as nearly as can be to a straight line
from Jacob Robbins dooryard fence to the West corner of Jacob Perkins barn yard
fence - they therefore pray this Honorable Court to alter & lay out said road
Accordingly - March 1825 Jacob Perkins & fifty five others -
This Petition was entered in this Court at the term thereof holden on the first
Tuesday of April last past at which term it was ordered by the Court that said
petitioners cause notice to be given to the Inhabitants of the Town of Springfield
of the pendency of said petition by serving the Town Clerk of said Town of
Springfield with a true and attested copy of said petition and this order thereon
thirty days at least before the next term of this Court to be holden on the second
Tuesday of September that they may then & there appear and shew cause if
any they have why the prayer thereof should not be granted - And it was
further ordered that Samuel Lathrop Justice Ely & James Hunt be and
they were appointed a Committee of the expense of the petitioners to view
the alteration of the Road prayed for and make report to the next term of this
Court holden or last aforesaid their opinion as to the Common convenience
and necessity of such alteration and this petition was continued to this term
And now in this term it appearing to the Court that notice agreeable to the above
order had been given to the Inhabitants of the Town of Springfield and the said
Inhabitants of Springfield being three times publicly called to come into Court
make default of appearance - And the aforesaid Committee make the
following Report in writing. - "The Subscribers two of the Committee appointed
by the within commission in the absence of the other members of the Committee
have this day agreeable to previous notice met, the petitioners, the Selectmen of the
town of Springfield, the agent of the Town & others and after examining the alteration
in the highway prayed for by the petitioners, & hearing the observations of the respective
parties for & against the alteration as here leave to submit the following report
The Subscribers are of opinion that an alteration in the highway may be made
at the place contemplated by the petitioners without any detriment to the public
interest and much to the benefit of the town and the owners of the adjacent lands
but they think ^{that} the limits prescribed in the petition will not embrace the alteration
to that extent which would be expedient nor so far as to save the trouble, expense
and inconvenience of future applications & the Court should be of opinion that
they must be confined in their adjudication to the two termini mentioned in
the petition, though the evils now existing would in that case be in some
degree removed, yet as it would be but a partial remedy, we think that the
prayer of the petitioners ought not to be granted - whenever any alteration is
made we think that it ought to commence at the northeast corner of Joseph
Robbins lot, and thence extend in a straight line to a stone at an angle of the
present road in front of Jacob Perkins west dooryard - such an alteration would
leave ample room for the public highway & at the same time would produce
a very straight line on the south side of the road, and would thus make very
eligible building lots which would probably soon be occupied in such a manner

To be an encumbrance to the town - We can have no suggestion a doubt whether if such an alteration would give the owners of the adjacent lands the right to that part which would be relinquished by the public, the town of Springfield ought not to be secured for it at a reasonable valuation before the alteration should be finally made & adopted all which is submitted - September 5th 1825

County Tax Collector

The Committee appointed at the last April term to make an Estimate for a County tax for the year ensuing Report's the sum of Five Thousand Dollars to be assessed upon the several towns in the County - which report is as follows - "The following is an Estimate for a county tax made September 10th 1876 -

Amount of assessments of the County of Jefferson \$100.00

Travel & attendance of Grand Jurors \$450.00
do do of Petit Jurors 050.00
Squire's Bills 140.00
Sheriff's Deputy Sheriff & Constables bills 250.00
Feeding Prisoners in Gaol 700.00
Books & papers for public offices 90.00
Coroners bills on Inquisitions 50.00
Repairs of County buildings 100.00
Cloth of the Peace Bell 50.00
Commissioners on Roads not yet allowed paid 50.00
Contingent Expenses 000.00
Total which may be deducted for what will be received \$3680.00

for licences, duties jury trials & for keeping prisoners for the Comm^{rs} 610.00
leaving to be raised by tax for the ordinary expenditures of the County 3000.00

It appears that the ordinary expenses cannot be less than \$3000.00 annually
The money raised on the Estimate of the Committee for the House of Correction
being \$2500. has more of it been expended - the funds necessary to pay the charges
on the County made by the Road Commissioners I have no means of ascertaining
but if the system is continued it must be to a considerable amount - the money
raised for the House of Correction may be wanted for that purpose - the tax last year was
\$5500. I recommend that there be added to the above sum of \$3000. for the
defraying the expenses of Roads to \$2000 - making the tax \$5000 - and that if it be
insufficient the Treasurer be authorised to borrow for that purpose

Alteration of
Road in West-
Springfield from
Hosca Bluffs
Dwellinghouse
to Southampton
line —

Humbly shew the Subscribers that the County Road from the line between Southampton in the County of Hampshire and West Springfield in the County of Hampden, beginning on said line a little south of the Dwellinghouse of Gamaliel Pomery in Southampton and from thence to the River road at the shop of Hosca Bluffs in West Springfield is circuitous andilly — that in the opinion of your petitioners various alterations may be made by which the distance may be shortened and the road otherwise much improved — they therefore pray your honors after due proceedings in the premises to appoint a Committee to lay & make such alterations as may be found necessary for the public convenience and also discontinue such parts of the old road as such alterations may render unnecessary —

Thomas Shepard & twenty six others —

This petition was entered in this Court at the term thereof holden on the fourth Sunday of March in the year of our Lord one thousand eight hundred & twenty four at which term it was ordered by the Court that the petitioners cause notice to the town of West Springfield by serving the town Clerk of said town with a true & attested copy of their petition & order thereon thirty days at least before the next term of this Court to be holden on the Tuesday next preceding the fourth Monday of August next that they might there appear and shew cause if any they have why the prayer thereof should not be granted And it was further ordered by the Court that Elijah Bates Robert Emery and Ebenezer Russell be a Committee into the road as prayed for and Report at the next term of this Court their opinion as to the convenience or necessity of making such alterations in said as prayed for in said petition and this petition was continued to next term of this Court to be holden on the Tuesday next preceding the fourth Monday of August in the year of our Lord one thousand eight hundred & twenty four at which term the aforesaid Committee made their Report in writing as follows — "We the Subscribers a Committee appointed by the within Order of Court having given due & reasonable notice to the Selectmen of the Town of West Springfield and all persons interested of the time and place of our meeting, met the parties & proceeded with them to view the road and the proposed route for a road as prayed for in the petition — we your Honor hereby inform the Hon. Justices of the Court of Sessions that the now traveled road from Gamaliel Pomery in Southampton to West Springfield is circuitous, poor and uneven, and in many places too narrow, the fences on each side of the road being so near as to prevent the necessary repairs on the road, being made & also to cause the snow in the winter season so to drift as to prevent passing. We are unanimous in our opinion that the public good & common convenience make it necessary that the following alterations on said road should be made, Beginning at the Highway a little west & near the Blacksmiths shop, M. Howard's

West Springfield, thence running Northwesterly of the now travelled road & nearly westerly
Course through improved land one hundred & fifty one rods to the road near the top of the
Hill, this alteration will greatly save the rise & descent of the hill & shorten the distance about
twenty two rods and when once made will in every respect be far preferable and
kept in repair at less expense than the now travelled road. And should the now
contemplated road be made, the greater part of the whole of the old road may be
discontinued - Also another alteration near the Ponds, Beginning at a stake &
stones by the highway by land of Elisha & Aspley thence running N. 35° 15' West
across the corner of said Aspley lot near a large shade tree in said corner fourteen
rods to a stone bridge on the highway N. 35° 15' W. Seventy rods thence N. 25° W. fifty
four rods to the road near the brook at the North end of the west pond - The road now
travelled between the ponds adjoining the proposed alterations is crooked, hilly and
very narrow and liable from the natural nature of the ground to be blocked up
with snow in the winter and travel rendered impossible. - Also your Committee
further report that the following alteration be made that Common convenience & necessity
require (viz) beginning at the angle of the two roads at the southeast corner of the
burying ground in the Northwest part of the Town of said West Springfield thence N. 0°
East Seventy eight rods thence N. 62° 30' E. Eighty three rods thence N. 30° W. twenty three rods
thence North 20° W. Seventy four rods thence N. 12° W. twenty two rods thence N. 90° W.
One Hundred rods to the line between the Towns of Southampton in the County
of Hampshire and West Springfield aforesaid, & being (turning the same last mentioned
point) about one thousand & fifty rods from the dwelling house of said Gamaliel
Pomeroy in said Southampton - The above proposed alteration is to connect
with the contemplated road to be made from the dwelling house of said Pomeroy
to the said line of West Springfield the greater part of the above points & distances are
upon a town road now made & travelled - The distance said in travel from said
Pomeroy to said West Springfield is by this alteration eighty rods & the ground
more favourable for a road and less hilly and the same can be done at a small expense
all which is most humbly submitted

Report of Comm. on
Levi Brooks
Petition for a way to
discontinue a
road -

The Petitioner of Levi Brooks of West Springfield in said County humbly represents that The Selectmen of said Town of West Springfield on the fourth day of April last laid out a new town way across the farm of your petitioner beginning at a stake near where the two roads leading to almost town &c called in town, and running East q^r degree South 26 rods in town land to Levi Brooks land; thence same point 60 rods on said Brooks land; thence far to be three rods wide; thence same point four rods to a stake on the brow of the Hill thence East 4th degree North 24 rods nine links in said Brooks land to Abner Morgan Land thence on said Morgan Land East one degree North 10 rods then East 20 deg. South 13 rods to the center of the road at the head of the lane so called the road to be four rods wide from where we mentioned a three rod road - And the said Selectmen assessed damages to the said Levi of seventy Dollars - which report or laying out of said road was made to the Inhabitants of said Town at a meeting of said Inhabitants holden by adjournment from the thirteenth day of the same April on the seventeenth day of said Month when the report of the Selectmen was accepted - Now your petitioner thinks himself greatly aggrieved & injured by the doings of said Selectmen & the acceptance of said report of said Road by the said Town in as much as no additional road was necessary and if it was necessary is laid in a place where a good road can never be made & where it cuts the farm of your petitioner in a manner very inconvenient for fencing & cultivation - If however the road was necessary and was laid in the most convenient place the damages allowed your petitioner as a by no means an adequate compensation for the injury he has sustained in as much as about two acres of his land is taken for the road; he is subjected to the expense of erecting about One Hundred & fifty rods of new fence; his farm is cut into very inconvenient divisions and so as to render a part of it difficult of access & the travelled road is turned from his dwelling house - Wherefore your petitioner prays this Honorable Court to enquire into & determine by a jury to be thereunto appointed as to the necessity and convenience of the road so laid out by the Selectmen & accepted by the Town as aforesaid; and in case the same shall be adjudged necessary to enquire into & determine as to the amount of damages which your petitioner has sustained by the laying out said road & to assess such damages as in their opinion your petitioner has sustained and as in duty bound shall our say West Springfield the 14th 1826

Levi Brooks by his attorney S. S. Lathrop -

Hampden Co. Court of Sessions September Term 1827

The petition aforesaid was entered in the Court of Sessions at the term thereof holden for said County on the second Tuesday of September in the year of our Lord

in conformity to a Resolves of the General Court passed March 11th 1734 continuing the term of said Court holden for said County on the first Tuesday of April next at which term it was ordered by the Court that the petitioner cause notice to be given to the Town of West Springfield by serving the Town Clerks of said Town of West Springfield with a true & attested Copy of said petition and order of Court therein thirty days at least before the next term of this Court to be holden on the second Tuesday of September next that they might then & there appear and shew cause if any they had why the prayer of petition should not be granted. And now at this term it appearing to the Court that notice had been given agreeable to said order of Court and the said Levi Brooks by Samuel Lathrop his Attorney & the Inhabitants of the said Town of West Springfield also appear by their agent Caleb Rice Esq. and make the following agreement "In the case of the petition of Levi Brooks the parties agree that the following persons shall be a committee to wit Roger Adams & Josiah Stebbins of Springfield & Jonathan Smith of West Springfield with power to perform & discharge the duties prayed for by the petitioner in the same manner that a jury appointed by the Court would & might perform the same" And thereupon the Court appoint the said Roger Adams, Josiah Stebbins & Jonathan Smith a Committee to perform & discharge the duties as specified in the above agreement & where to be under oath, faithfully & impartially to perform & discharge the duties assigned them & to give due and reasonable notice to said Levi Brooks & also to the Selectmen of said Town of West Springfield of the time & place of their meeting to attend said service & make return of their doings here in to the Court of Sessions to be holden for said County on the first Tuesday of April next — and this petition was further continued to this term — And the aforesaid Committee send their report in writing as follows "Pursuant to the foregoing Commissions we the subscribers having given due notice to the petitioner to the Selectmen of the Town of West Springfield & others interested and having been duly sworn have attended to the duty assigned us & report that we have this day examined the road laid by the said Selectmen as described in the foregoing petition and are of opinion that for much the greater part of the way it is laid in an unsuitable place & would have attended with great expense to make it & to keep it in repair & that therefore it ought not to be established as a town way but ought to be discontinued. We are also of opinion that the damages assessed by the Selectmen to the said Levi are not an adequate compensation for the damages he would sustain by opening a road through ^{his} farm in that direction. But we are of opinion that a road may be made across the farm of the said Levi with much less private injury, at a less expense & to the greater convenience of the Inhabitants; We have therefore laid a road in the following direction & recommended that the same be established instead of the one reported by the Selectmen Beginning on the West side of the farm of the said Levi Brooks at the ditch one rod & a half North of a fence running Easterly, & turning thence in the Course and direction of the road laid by the Selectmen to wit, East Nine & a half degrees South Forty five and a half rods to a stake in the fence then East four degrees South twenty three rods to a stake, then East twenty two degrees North twenty rods to a stake in the fence near the brook, then East three degrees South Eighteen rods & Nine Linches to a stake in the highway a little North of the willow tree then East thirty nine & a half degrees South thirty rods to a stake in the highway a little North of Oliver Morgans fence — We have laid the road three rods wide, and the stakes staked in the center of the road & we have assessed damages to the

would respectfully Represent that a Highway in said Springfield
is much wanted to begin near the dwelling house of James Robinson

the same direction till it strikes the road now leading from
Sudlow to Chickford and thence following the last mentioned
road nearly till it connects with the new road prayed for in the
petition of Joseph Strong and others from South Hadley to the
Boston & Springfield Factory and will be of great public
utility that the new part of said Highway will be but about one
mile and a quarter in length will pass over ground nearly level
most of the way and very favorable for a road and that the same
can be made for a moderate Expense wherefore your petitioners
that the same highway may be adjudged to be of common Con-

Petition for a road
at their meeting to be holden at Springfield in said County on the second Tuesday of September A.D. 1828. Humbly shews the Subscribers that a new County road leading through the westerly part of ward to Greenwich commencing at or near the Separation of the Elebertown and ward roads near the dwelling house of David Dickinson in Palmer in said County & extending to the County road north of ward River at some suitable junction with said last road is of common convenience and necessity they also represent that said new road will render the present County road from the South Bank of ward River to the Junction aforesaid useless & prevent the necessity of Building and Supporting an expensive Bridge across the ward River The Bridge now erected there is insecure against the Effects of Floods in consequence of a large Excavation near the Centre pier thereof. They also further represent that a new road commencing at the East end of the County Road near the dwelling house of John Smith in Palmer aforesaid and extending Easterly till it intersects the Turnpike road opposite the Northeast Corner of the meeting House in said Palmer is of common convenience & necessity for the purpose of connecting said last road by an easy and straight course with said Turnpike road - Wherefore Your Petitioners pray your honors after due proceedings had in the premises to locate and establish said new roads & to discontinue such parts of the old County roads as would become needless by locating and establishing said new County roads and as in duty Bound will law pray

The aforesaid Petition was continued to an adjourned Meeting of said Commissioners holden at Springfield within and for the County of Hampshire on Tuesday the fourteenth day of October in the Year of our Lord one thousand eight hundred and twenty eight by adjournment from the second Tuesday now last past and from day to day to the sixteenth day of said October at which term the Alteration prayed for in said Petition was adjudged of common convenience and necessity as by report on file and the same was ordered to be laid out - And this case was further continued to a Meeting of the aforesaid Court held on the fourth Tuesday of April last past at which meeting Jonathan Dwight Jr. and twenty six others filed a remonstrance to the foregoing Petition in the words following -

To the Honourable the Commissioners of the County of Hampshire, The fourth Tuesday of April 1839 Respectfully represents that the Subscribers Inhabitants of the Town of Springfield have been notified that a Petition is before your Honourable Body to widen, straighten, alter or lay out a road running on that part of Main Street in Springfield near the House the late Jacob Pitt deceased, southerly to the top of the Picowick Brook, in Long meadow, Now the Subscribers beg leave respectfully to shew that the laying out of a new road as is proposed running between the House of Jonathan Pease & Walter Warrens southerly across Mill River would be attended with Great Expense in the Construction as well from the peculiar Location of the road as from the damages that would accrue to individuals and with still more burdenson Expense in the Repairs and maintenance which it would annually require on account of floods and freshets that the accommodation to the public would be trifling in comparison with these Expenses and that the public are well accommodated and contented with the present road. The Subscribers beg leave to shew further that the Town of Springfield is now Subject to a heavy debt and burdenned with the Expense of many new roads now making and other great yearly accruing Expenses and that it is unprecedented in the knowledge to cast upon a Town the Expense of maintaining two Bridges within so short a distance of each other as the present Bridge and the Bridge of the proposed Road. The Subscribers therefore humbly Remonstrate against the laying out of said Road running between the Houses of Jonathan Pease and Walter Warrens southerly across Mill River as aforesaid & Refer the Subject to the impartial consideration of your honourable body

Carpenter et al To the County Commissioners for the County of Hampshire
Pet. for a road The Subscribers Inhabitants of the Towns of Wilbraham and Attson in said County respectfully represent. That the road from the north Parish in Wilbraham to Mounson line running by the House of George & his wife as the same road runs is very badly crossed and difficult to be kept in repair, that some part of the same has never been mended at all, and for these reasons said road is so bad that it is not much travelled, that alterations may be made in the same between the four corners to called on Wilbraham Mountain and Mounson line which will much shorten the distance have a considerable part of the hills and render the road more easy to be kept in repair that public convenience and necessity require that such allegations should be made and we have good reason to believe that if they were made the travel on said road would be much increased and it would be immediately made a Stage Road - Your petitioners therefore pray your honourable Board that such proceedings may be had in the premises as the law requires for making the alterations aforesaid or such parts thereof as your Honourable Board may think proper - March 30. 1829

For the County Com^{rs} of the County of Hampden - Respectfully Represent the Subscribers Inhabitants of said County. That in their opinion the County Jail is wholly inadequate & insufficient to answer the purpose of a Public Prison that for a greater part of each year there is not room therein to accommodate the number of prisoners frequently confined there without crowding a great number into each cell & often confining those committed on charge of trifling offences in the same room with hardened offenders under sentence for crime They therefore pray that an early inquiry may be had on the subject & such other proceedings as may provide an adequate remedy in the premises - Dec 1829 - Signed Geo M^r & 49 others -

signed, respectfully represents that the public convenience & necessity require
that an alteration should be made in the road leading from Fall
Village to the Three Rivers in Palmer by laying on & constructing a new
road commencing near the dwelling house of William Meade in Palmer
and running in a southerly direction to terminate at the road as now
travelled at a point near the bridge at the Three Rivers, This alteration
or new road would save in distance 45 from William Meade to the
Three Rivers & give the public a more short & easier travelled path
road - The road can be constructed with small expense where

ground suitable for a road. It is known that the travel business
between Ware & Springfield is very considerable & would be much im-
proved by the improvement now desired. They therefore pray a view
of the premises may be had such order taken thereon as the public
convenience & necessity may require. And as in duty bound will ever

Selectmen of

 petition for an
 alteration of a
 bridge

To the hon County Com^{rs} for the County of Hampden - Gentlemen -
 Whereas your Honors have ordered an alteration in the road leading
 from Springfield to Longmeadow & a bridge to be built over the brook
 near the mills of Henry Woodcott - The subscribers Selectmen of the
 Towns of Springfield & Longmeadow pray your Honors so far to alter
 your road as to direct that a bridge over said brook of the following
 dimensions and materials may be erected - The bridge to be thirty feet
 wide the water course to be ten feet wide eleven feet high the walls
 of stone of suitable height & arches with brick or stone your sub-
 scribers have caused an estimate of the expense of a wood bridge
 and one of the above description to be made and find that a per-
 manent bridge may be erected at about the same expense as a wood
 one and as said bridge is to be erected & maintained at the joint ex-
 pense of Springfield & Longmeadow it is desirable it should be so built as
 to be subject to as few repairs as may be - in regard to the dimensions
 of the water course your petitioners have taken the advice of those ac-
 quainted with the stream, believe the dimensions above stated to be
 sufficient - Springfield June 22-1830. J. Howard
